

PVA TePla AG: subsidiary receives major order for crystal growing systems

(Aslar, 21.12.2005) - CGS GmbH, Aslar, a wholly-owned subsidiary of PVA TePla AG, has been granted an order worth around 8 million euros to supply crystal growing systems for the 300mm wafer generation to Munich-based Siltronic AG, one of the world's leading suppliers of silicon wafers to the semiconductor industry. The systems are scheduled for delivery by the end of 2006.
