

Solar Market: Cooperation with Partner in India – Order from Asia

(Wettenberg, September 26, 2011) – The Solar Systems division of the PVA TePla Group, which specializes in crystallization systems for semiconductor and solar silicon as well as vacuum and high-temperature systems, is looking to focus increasingly on India as a key future market for photovoltaics. To promote this, a comprehensive program of cooperation in the areas of sales and service has been entered into with the renowned Indian company Bergen Associates, which already works with a range of notable European system manufacturing companies in the solar market and demonstrates proven expertise in cell and module production.

Further more the Solar Systems division received in September another order from the Asian solar industry for the supply of MultiCrystallizer crystallization systems for producing multicrystalline silicon blocks worth around EUR 5 million.
