

PVA TePla forms new subsidiary in Asia

(Asslar, June 5, 2007) – PVA TePla AG, Asslar, formed a new subsidiary in Singapore at the start of June 2007. PVA TePla Singapore Pte. Ltd. will assist and support in the handling of the Siltronic Samsung Wafer Pte. Ltd. order for the delivery of crystal growing systems.

In the future, in addition to its participation in this major project, which will be continuing throughout 2008, the new subsidiary will provide services for Crystal Growing Systems division customers and, in the medium term, will also serve as a sales point for other PVA TePla AG products in the Asian region.

The company will maintain a streamlined structure that will allow it to adapt quickly and flexibly to the necessary requirements.
